Suhas Devmane

PhD in Computer Science | DATA analysis | IT Professional
Cardiff, Wales, United Kingdom

Summary

Cardiff University relies on the expertise of a dedicated Information Technology Support Assistant with 11 months of experience in delivering robust technical support and maintaining database solutions. This role emphasizes collaboration with teams to enhance system performance and resolve technical challenges efficiently.

Beyond IT support, the individual brings over three years of research experience in computer science, integrating technical acumen with analytical rigor. Their work reflects a commitment to advancing data-driven solutions and fostering innovation through informed problem-solving, aligning with Cardiff University's goals.
